Android Project 5 - *FitSit*

Submitted by: *Joshua Walker*

FitSit is a health metrics app that allows users to track daily water intake

Time spent: *7* hours spent in total

Required Features

The following **required** functionality is completed:

- [x] **At least one health metric is tracked (based on user input)**
  - Chosen metric(s): Daily Water Intake in oz
- [x] **There is a "create entry" UI that prompts users to make their daily entry**
- [ ] **New entries are saved in a database and then updated in the RecyclerView**
- [ ] **On application restart, previously entered entries are preserved (i.e., are *persistent*)**

Video Walkthrough

Here's a walkthrough of implemented user stories:
